

GP Net Earnings

Disclaimer

NHS England requires that the net earnings of doctors engaged in the practice is publicised, and the required disclosure is shown below. However it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice.

Declaration

All GP practices are required to declare the mean earnings (e.g. Average pay) for GPs working to deliver NHS services to patients at each practice. The average pay for GPs working at Thorpe Hesley Surgery in the last financial year (2023/24) was £78,866 before tax and NI. This is for one full time Doctor, one part time salaried Doctor and one Locum GP who worked at the Practice for more than six months.
